Last week many of our Year 4 went on a residential trip to Whitemoor Lakes. For many it was their first experience away from home without their parents. All the children had an amazing time whilst facing new and exciting challenges e.g. abseiling, canoeing, fencing, and high-ropes.
Creatively Writing Workshop

Boys from Falcons class had an invitation to attend a Creative Writing event at the University of Northampton last week. They were able to work closely with authors, learning a range of devices and techniques to engage readers and enquire about how they were successful in getting their books published. In addition to this, they learnt about the power of marketing using symbolic influences to persuade people to choose particular products/services through advertising techniques. We had a great day and are now practising some of these skills back in school.

Congratulations to Falcons who had the highest attendance for w/c 4th June with 98.2%.

Dates for your Diary— events coming up in the next few weeks.

- 18th June—Year 6 residential to Overstrand (4 nights and 5 days)
- 19th June— Year 5 girls STEAM day at NHS
- 21st June—World Music Day
- 22nd June—Year 5 Inter academies athletics competition—Leicester
- 22nd June—Year 2 trip to Hunstanton
- 25th June—Year 5 visit to the Space Centre
- 6th July—School Fete
- 6th July— School reports sent home
On every newsletter we will be including a silver and gold maths challenge. If you would like to have a go at either or both, please put your name, class and solution on the back and hand to your class teacher by Thursday 28th June. Each week the winner from each category will be awarded a prize in the awards assembly on the Friday.

**Silver**

At the toy shop

The toy shop stocks tricycles and go-carts.
The tricycles have 3 wheels.
The go-carts have 5 wheels.

Suna counted the wheels.
He counted 37 altogether.

How many tricycles are there?
How many go-carts?
Find two ways to do it.

**Gold**

Bus routes

Six towns are connected by bus routes.
The bus goes from A back to A.
It visits each of the other towns once.
How many different bus routes are there?

This table shows the bus fare for each direct route.
B to A costs the same as A to B, and so on.
